- **Languages & Tools:** Python, Java, SQL, Excel, Power BI, Android Studio
- **Data Analytics:** Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA), Dashboarding
- **Technologies/Libraries:** Machine Learning (Basic), Pandas, NumPy, Matplotlib
- **Frameworks/Concepts:** OOP, Data Structures & Algorithms, Dynamic Programming, Android App Development
- **Soft Skills:** Critical Thinking, Data Storytelling, Team Collaboration, Adaptability

Internships/Experience

Power BI Expert Intern

Feb2026 - Mar2026

Microsoft Elevate Remote Internship – 4 Weeks

Power BI Expert

Internship Completion Certificate

Business Analysis Intern

Aug2026 - Jan2026

Yadgreen India Remote Internship – 8 Weeks

Business Analyst

Internship Completion Certificate

Projects

E-Commerce Sales Dashboard | *Power-BI [Project Link]*

- * The E-Commerce Sales Dashboard project successfully analyzes and visualizes sales data to provide clear insights into business performance.
- * The dashboard displays important metrics such as total sales, total profit, quantity sold, and average sales value, helping users quickly understand overall performance.
- * Performed data cleaning and transformation using Power Query to ensure data accuracy and consistency.

Income Survey Dashboard | *Advanced Excel [Project Link]*

- * Designed an interactive Excel dashboard analyzing income distribution by gender, education, and occupation using Pivot Tables, charts, and slicers for dynamic insights.
- * Performed data cleaning and transformation to ensure accuracy and consistency of analysis.
- * Generated key insights on income trends, working hours, and demographic patterns through visual analytics.

MediBuddy – AI Healthcare Chatbot | *Telegram Bot, Make.com, GORQ, Medical APIs [Project Link]*

- * Built an AI chatbot for verified medicine and disease info using Telegram Bot API, Make.com, and GORQ for structured queries

- * Ensured accurate responses using medical APIs (DrugBank, WHO, OpenFDA), achieving 94% accuracy with 12s response time across 500+ drug and 200+ disease records.

Plagiarism Checker | *Advanced Python*

- * Developed a plagiarism detection system to compare multiple text documents and identify copied or similar content.
- * Produced percentage-based plagiarism reports highlighting duplicated content for academic and content validation.

To-Do List Mobile Application | *Android App Development*

- * Developed a productivity-focused Android application to manage daily tasks and reminders.
- * Implemented features to add, update, delete, and mark tasks as completed with a user-friendly interface.
